Testing Plan

Test	Variable	Hypothesis	Duration	Success Metric
Test 1	Pay in headline vs. bonus in headline	"\$17/hr Start" outperforms "Earn Bonuses" because pay is the initial hook	2 weeks	CTR
Test 2	Urgency CTA vs. benefit CTA	"Start This Week" outperforms "Full Benefits" for immediate need seekers	2 weeks	CVR
Test 3	Ad Group performance	AG1 (lead gen intent) outperforms AG3 (general) on CPA	3 weeks	CPA

Success Criteria

KPI	Target	Measurement	Benchmark (Google Search)
Cost per Application	≤ \$10	Google Ads Conversions	Median: \$35
Application Volume	≥ 150/month	Google Ads Conversions	—
CTR	≥ 4.5%	Google Ads	Median: 4.5%
Quality Score	≥ 7	Google Ads Keywords	Median: 6
Impression Share	≥ 50%	Google Ads Search IS	Median: 45%
CPC	≤ \$2.50	Google Ads	Median: \$2.50

Risk Flags

Risk	Impact	Mitigation
Small suburban market = low search volume	<500 impressions/week possible	AG3 (general jobs) captures broader intent; consider expanding radius
Bath Concepts is a single client/location	If req closes, campaign is wasted	Monitor req status weekly; pause immediately if FLEX-24351 closes
No clerical keyword seed list exists	May miss high-performing keywords	Run Search Terms report after week 1; mine for new keywords
LP may not match "customer service" intent	Lower Quality Score if mismatch	Verify LP content mentions CSR / call center / lead gen explicitly
Q1 seasonal modifier (0.9x) ending soon	CPCs will increase ~11% in Q2	Front-load spend in March; re-evaluate CPA target in April
